

Risa Kawagoe

(+1) 236-982-8078 | rkawagoe@sfu.ca

Portfolio website at <http://kwgblogs.xsrv.jp/>

■ EDUCATION

Simon Fraser University, Burnaby, BC

January 2020 - Present

BSc. Computer Science – Software Systems

■ SKILLS

Languages and frameworks

- JavaScript (React, Angular, Node, Express), TypeScript
- PHP, HTML, CSS
- C/C++, Java, Kotlin, Python

Other tools

- jQuery, MySQL
- Git, GCP (Compute Engine, Cloud SQL), WordPress, Visual Studio Code, Figma

■ TECHNICAL PROJECTS

SFU SYNAPSE – React app (React, MySQL, Node, Express, GCP)

January – April 2023

- Developed a social networking full-stack app using the SERN stack to help SFU students identify and build strong connections with classmates.
- Designed a clean and user-friendly user interface to allow intuitive user interaction.
- Pulled up-to-date course information from SFU Course Outlines REST API to allow users to add enrolled courses and connect with users who have common classes.

■ PERSONAL PROJECTS

Personal portfolio website (React, HTML, CSS, Figma) *in progress

May 2023 – Present

- Designed and implemented a personal website using React JS and HTML/CSS which allowed me to display my cumulative work through an easily and widely accessible media platform.
- <http://kwgblogs.xsrv.jp/>

Business website for a freelance videographer (JavaScript, HTML, CSS)

May 2020 – June 2021

- Implemented a built-in video gallery using jQuery and YouTube API which allowed the website content to be self-contained and convenient for users to seamlessly navigate the website.
